

Heavy duty descaler gel

Phase	Ingredients	GIS.5	%DM
A	Water	Qs.100	
	Xanthan gum	0,5	0,5
	APPYCLEAN 6781 <i>Foaming, degreasing, solubilising</i>	2,0	1,2
B	iminodisuccinate sodium salt (34%)	1,5	0,5
	Citric acid	14,1	14,1
	Lactic acid (80%)	-	-
	Glycerin	6,0	6,0
C	EtOH	6,1	5,8
	APPYCLEAN 6781F <i>Preservative booster, foaming, degreasing</i>	1,0	0,6
	Parfum, Dye	Qs.	
		H319	28,7

Physical properties

Appearance clear gel

pH=2,4-2,5

viscosity (Brookfield, spindle 63, speed 12) 1500-2500CPS

stability 3 months 4, 20, 45°C

Use: Dilution 1 part concentrate with 2 parts tap water

Advantages

- Concentrated in acid – Economical in use
- Highly effective for descaling bathroom areas
- Leaves bathroom sparkling clean and long-lasting shine
- toxic additive-free
- Safe for use and septic system
- Naturally-derived biodegradable
